1. Doors open and close correctly 
2. Door locks and child safety locks work properly 
3. Door beadings are clean 

### Seats 80%

1. Seats, including all position adjusters, work properly 
2. Headrests function properly 
3. Seatbelt condition, operation and extension are proper. 

## Drive Train

**89%**

### Clutch 80%

1. Clutch operates smoothly 
2. Clutch Bearing works well without noise 
3. Master and Release cylinder are free of oil leaks 

### Gear Box 80%

1. Gear Box works well without noise. 

### Transmission 80%

1. Automatic transmission in power mode shifts properly 
2. Transmission gear ranges engage promptly while shifting 

3. Transmission case and pan are free of leaks 
4. CV joints and axle shafts are undamaged. 
5. Differential fluid level is proper and free of leaks 
6. Drive shafts work well without noise 
7. Differential works well without humming noise and play 
8. Working of EMPS (Electric Motor Assisted Power Steering) is effective 
9. Working of CCS (Cruise Control System) is effective 
10. Transfer case smoothly switches from 2WD to 4WD and back from 4WD to 2WD 

## Engine

89%

### Engine Performance 80%

1. Engine oil is free of sludge(around engine oil cap and also after opening the cap) 
2. Engine RPM maintains level during cold start 
3. Throttle is fine without shutting on cold start 
4. Drivability OK during warm-up and when Hot 
5. Engine mounts are free of damage & vibrations 
6. Wiring to all sensors is free of Joints/Cuts 
7. Lines and wires with the other systems are properly mounted & are rigid without any fouling 
8. Running (idle/Normal) of the engine is proper 

### Oil Leakage 80%

1. Engine oil levels are proper and free of leakage. 
2. Coolant levels are proper and free of leakage. 
3. Brake oil levels are proper and free of leakage. 
4. Power steering oil levels are proper and free of leakage. 
5. Transmission oil levels are proper and free of leakage. 
6. Engine room and storage are free of fuel leakage and smell. 

### Belts 80%

1. Drive belts and hoses free of cracks or damage 

### Engine Noise 80%

1. Engine noise is normal 
2. Water pump noise is normal. 
3. Catalytic converter is free of visual damage & noise. 

### Pumps & Pressure 80%

1. Fuel pump functions well without jerks & slow acceleration 

### Radiator/Condensor 80%

1. Radiator fan noise is normal 
2. Engine is free of blue/Black smoke 
3. Engine reaches normal operating temperature quickly, radiator fan function normal 

### Silencer 80%

1. Exhaust System (End piece) is free of rust. 

## Brakes

89%

### Brakes 80%

1. Calipers, lines & hoses are working properly. 
2. Brakes operate without excessive vibration or pumping 
3. ABS operates on emergency stop 
4. Brake & Booster are in proper condition 

5. Brake pedal free play and travel are normal 
6. Master/Wheel cylinder is free of leakage 

### Hand Brakes 80%

1. Parking brake sets and holds vehicle and releases completely 

## Suspension

89%

### Steering Operation 80%

1. Steering has normal feel in end-to-end turning 
2. Steering wheel centered in straight line driving 
3. Vehicle tracks and drives straight on level surface 
4. Tilt steering wheel adjustment works properly 
5. Steering Noise under normal level during test drive 
5. Tyre or steering wheel vibration at any speed is normal. 
6. Steering rack, linkage, bushings, control arms and dust boots are good. 

6. Steering rack, linkage, bushings, control arms and dust boots are good. 

### Suspension Condition 80%

1. Struts/shocks are free of leaks and wear 
2. Lower arms and Ball joint boots are free of leaks and wear. 
3. Balancing rod Mountings, Liners are proper. 

### Suspension Noise 80%

1. Vehicle noise is normal during test-drive 

AC

89%

### AC Cooling 80%

1. A/C cooling normal 

### AC Function 80%

1. A/C compressor noise is normal. 

2. A/C Fan running is fine (On/Off) and Noise free 

3. Heater operation is normal and effective 

4. Air Refiner Filter (A/C or evaporator filter) does not need replacement or cleaning. 

Tyres

89%

### Tyres 80%

1. Side walls of tyres are free of defects and damage. 

2. Minimum of 3 mm tread depth remaining across tread width 

3. All four tyres must be of same brand, model, size, tread design, speed and load rating 

4. Wheel cover caps secure with no damage 

### Walk Around 80%

1. Overall conditions of tyre 

2. Front Right 

3. Front Left 

4. Rear Left 

5. Rear Right
